

## Type VINTAGE

Fuel valve / oil cock for Oldtimers

Typ VINTAGE  
fuel valve

Typ VINTAGE  
oil cock with reserve  
option

- valve position:  
OPEN, CLOSE and RESERVE
- stainless steel design

Connection G ¼

Range of application::

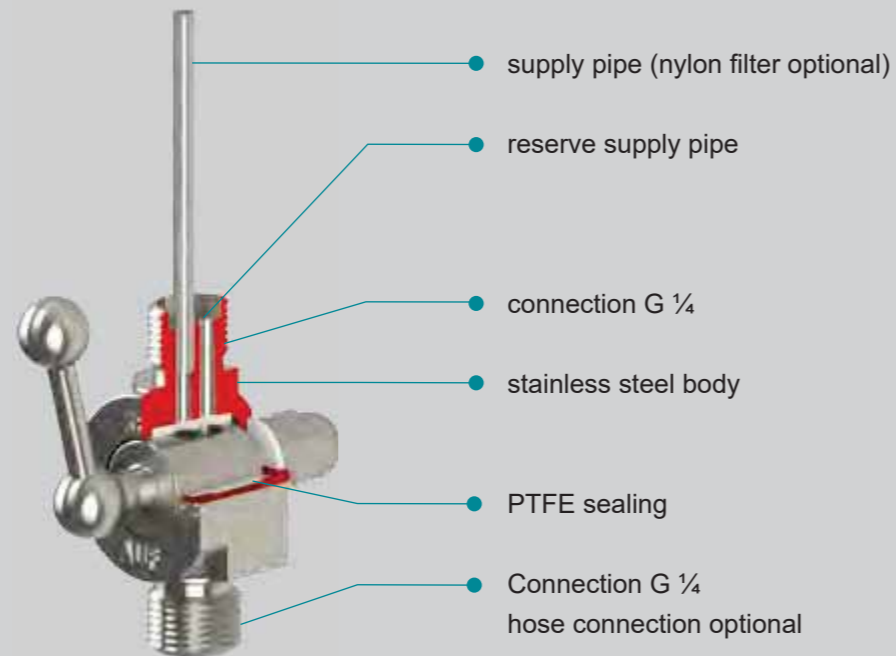

-60 < T < 230/°C

### Design characteristics

- cavity-free
- PTFE sealing
- maintenance-free, self-lubricating
- no drying-out or sticking of the seal

### Option

- nylon filter
- hose connection
- special connection

- supply pipe (nylon filter optional)
- reserve supply pipe
- connection G ¼
- stainless steel body
- PTFE sealing
- Connection G ¼  
hose connection optional

## Type AQUA

Water supply plug valve

- changing of existing house water supply
- free of cavities (no sedimentation)  
maintenance-free, self-lubricating  
(PTFE)

DN 40 / PN 16 - PN 25

face-to-face dimension 240 mm

Range of application::

-60 < T < 230/°C

### Design characteristics

- tight for yearst
- open and close with quarter turn,  
even after a long standstill
- without stuffing box
- no coating required
- DVGW certification

### Option

- remote operation

- remote operation (option)
- square-end for all common  
remote operation
- PE sealing disc
- 90° stop
- PE sealing
- sealing surfaces of plug and  
PTFE sleeve always covered and  
protected in OPEN position
- plug and body made of  
stainless steel 1.4408
