

## Type NUCLEAR

Plug valves with butt-weld-ends for nuclear facilities

- nuclear approval
- complete chain of documentation for all parts
- individual acceptance tests

DN 15 - 250 / PN 10 - 160  
NPS ½ - 20 / Class 150 - 900  
Range of application:  
-60 < T < 230/280°C  
vacuum-capable

### Design characteristics

- forged steel
- high-pressure design
- replacement of sleeve of installed valve
- free of cavities
- maintenance-free, self-lubricating
- adjustable safety spindle packing
- Fire-Safe - API 607 / ISO 10497

### Options

- painting
- special materials
